Subject: Public feedback on tobacco packaging

Dear Sir/Mdm,

I am all for the new measures regarding tobacco packaging.

In addition, I also suggest the following -

1) restricting the sale of tobacco to a limited number of state-controlled sales outlets that are located a minimum of 5km away from any educational institution,

2) restricting sale of tobacco products to those aged 21 years and above only as of 2018 onwards,

3) increasing the penalties for possession, import and sale of contraband tobacco products, and

4) increasing the penalties for underaged smoking, supplying of tobacco products to underaged persons, possession of tobacco products by underaged persons.

Thank you.

Best regards,
