Subject: Public Consultation on Proposal to Introduce Standardised Packaging of Tobacco Products in Singapore

Attention: Director, Epidemiology and Disease Control Division

Dear Sir/Madam,

As a member of public, I would support all three key proposals to:

· Regulate the promotional aspects of tobacco packaging

· Standardise tobacco packaging elements

· Increase the size of graphic health warnings on tobacco packaging from 50% to 75%

In addition, it would be good if the price of tobacco could be increased to discourage smoking. Although my family does not smoke and my schools were free of smoking, I was shocked to be exposed to smoke at the workplace as most of my colleagues are heavy smokers even on a low pay. I hope more people can be saved from smoking with the change in packaging.

Thank you!

Regards,
Sumita
