Subject: EuroCham Response to MOH Public Consultation on proposed tobacco-control measures
Inbox x

Dear Director,

The European Chamber of Commerce Singapore (EuroCham), Intellectual Property Rights Committee (IPR Committee) represents leading European multinationals from different sectors and industries operating in Singapore and the region. In this respect, EuroCham's IPR Committee provides European brand owners and law firms with a platform for sharing best practices and a channel of communication with the Singapore Government and EU Institutions. The IPR Committee is dedicated to supporting the protection and enforcement of IP rights and is a partner to Singapore's aspirations of becoming a regional and global IP hub.

As a response to the Ministry of Health's public consultation paper on proposed tobacco-control measures in Singapore, EuroCham Singapore would like to submit its position on this proposed legislation, which serves also as a follow-up to our submission in 2016 which is also attached.

Please find the document attached for your consideration.

Sincerely yours,

Nele Cornelis
Executive Director

European Chamber of Commerce (Singapore)
