

Key Priorities For Pharmacy Technicians Workforce Development

01

Entry-to-Practice

Implement competency assessment framework for graduates to meet the benchmark competency standards at entry-to-practice

- 54 trainers attended training workshop in July 2023
- Revised Assessment Checklists template and Core Drug List in 2023

02

Manpower Pipeline

Improve attractiveness of career as Pharmacy Technicians and open up conversion pathways to broaden manpower pipeline

- Expanded the use of ETP Assessment Framework to Part-Time Diploma in Applied Science (Pharmaceutical Science) in March 2023

03

Career Pathway

Review career development pathway: (i) To address workforce issues and (ii) To identify areas for improvement to ensure future-readiness of the workforce

- 43 participants provided inputs for improvement at Focus Group Discussions in May 2023
- Ongoing discussions to formulate change ideas

04

Lifelong Learning

Strategic planning to future proof development of pharmacy support workforce

- Continual engagements with key stakeholders to chart the strategic plan and development framework for pharmacy support workforce
