

Public Places Visited by Cases in the Community during Infectious Period¹

From today, we are providing a list of public places that confirmed cases in the community had visited for more than 30 minutes. As epidemiological investigations progress, the list will be updated accordingly.

Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

Date	Time	Location (Address)
20 May	1630h – 1800h	Jurong Point (1 Jurong West Central 2) <ul style="list-style-type: none">• NTUC Fairprice
21 May	1730h – 1830h	Jurong Point (1 Jurong West Central 2)
	1745h – 1815h	Shokutsu Ten Japanese Food Street @ Jurong Point

¹ Excludes residence, workplaces, healthcare facilities and public transport. This list will be updated on a rolling 14-days basis, i.e. one incubation period.
