

ANNEX D: MY LEGACY FACTSHEET

The My Legacy portal (<https://mylegacy.life.gov.sg/>) is an initiative under the LifeSG Strategic National Project, to help Singaporeans plan ahead for end-of-life matters in a way that is easy and meaningful for both individuals and their families. It is developed by an inter-agency taskforce co-led by the Ministry of Health (MOH) and the Public Service Division (PSD), with support from agencies including the Immigration and Checkpoints Authority (ICA), Government Technology Agency (GovTech) and the National Environment Agency (NEA).

Key Features

2. The portal offers a variety of information and services that guide citizens on issues related to end-of-life support, care and planning, as well as post-death matters. They are focused on addressing three key areas:

- a. **End-of-life planning**, so that citizens understand why planning ahead is important and are empowered to do so. Services provided include guides on how to plan ahead; a consolidated questionnaire for citizens to prepare legal and financial documents such as Lasting Power of Attorney (LPA), Advance Care Planning (ACP) and CPF nominations; a secure vault to store important documents securely online and share them with loved ones; and LPA-ACP workshops to learn more about end-of-life planning and how to get started.
- b. **End-of-life care**, to increase awareness of care options available for themselves and their loved ones. Guides and resources are provided for citizens to find services such as palliative care, home care support and caregiver support.
- c. **When death happens**, so citizens have enough information at hand to settle administrative affairs peacefully and have time to grieve with their loved ones. The portal provides step-by-step instructions on what to do and what to expect when death happens, such as how to register a death, arrange for funeral services, and seek emotional support.
