

HOW TO GET YOUR MEDISHIELD LIFE PREMIUM SUBSIDIES

We will make it easy for Singaporeans to get their MediShield Life premium subsidies.

Pioneer Generation Subsidies and **Transitional Subsidies** will be given automatically.

No application is required for **Premium Subsidies** for the lower- to middle-income households. Existing information in Government databases will be used to determine your subsidies. Some Singaporeans may need to confirm their information online.

This will ensure that the subsidies reach as many Singaporeans as possible. Only information required to determine the subsidy you and your household will receive will be used. All information will be handled confidentially.

What You Can Do:

1

Ensure the address on your NRIC is updated

2

In a few months, look out for a letter to your household inviting you to confirm your household information online

This is to ensure that you can receive the correct amount of subsidies. More details will be released later.

If you have an Integrated Shield Plan, you will also be eligible for the subsidies as they will be applied to the MediShield Life component within your Integrated Shield Plan.

Integrated Shield Plans include:

AIA HealthShield Gold Max

Aviva MyShield

NTUC Income IncomeShield

Prudential PruShield

Great Eastern SupremeHealth
